

JACK JAW TYPE POST REMOVAL TOOL

Product Code: PR-JT

DIMENSIONS AND SPECIFICATIONS

Material	heavy guage steel plate and tubing
Weight	10kgs
Height	98cm

DESCRIPTION

The Delnorth PR-JT post removal tool is suitable for most steel guidepost and marker post profiles.

It is particularly suitable for straight edge post profiles including Delnorth Steel-Flex and is also suitable for star picket removal.

SPECIFICATIONS

The PR-JT Post Remover is manufactured from heavy gauge steel plate and tubing to withstand everyday job site use. There are 2 holes in the 100mm x 200mm base plate to allow you to attach it to a board for an even wider base for working in soft or wet soil conditions. The removal tool has a clear zinc plating for lasting durability that will resist corrosion.

The gripping jaws are manufactured from case hardened AR400 steel that will last for many post removals. If required, the jaws are easily replaced in the field using common tools.
